

LAD'S LIFE CRUSHED OUT IN PECULIAR ACCIDENT

DIRECTNESS IN EXPRESSION IS AIDING CONFAB

Diplomats Think They Can Foresee Outcome of Conference.

Washington, Nov. 22.—(By the Associated Press.)—Opinions have been exchanged among the arms delegates with such unprecedented directness that with the conference only ten days old some of the experienced diplomats here believe they can see, almost with precision, what it will and will not be possible to accomplish.

Following the example of the American delegation in laying down a sweeping naval reduction proposal at the opening session, the representatives of the other powers have put aside, almost without exception, the diplomatic indirectness that usually begets such negotiations and have reversed the dictum of Tallyrand that language is given to diplomats "to conceal their thoughts."

Agreement Thought Near
With the respective heads of the American, British and Japanese delegations working in direct personal conference almost daily on the naval reduction plan, there are indications that an agreement on all but details is near at hand. In the same way, the readiness of all the nations to commit themselves to general principles relating to the Far East, and the outspoken objection of Japan to discussing details of that situation, seem to have quickened a conviction that adoption of a set of principles like the four agreed upon yesterday will be the outcome of the Far Eastern end of the negotiations.

In addition the whole question of land armament appears to have been pretty well settled by the frank presentation of the case France delivered yesterday's plenary session by Premier Briand. The French statesman made it at once apparent that man made it at once apparent that definite readjustments of land forces will be impossible, in the view of France, because of existing conditions which she believes threaten her and the whole world.

To Talk Fortifications
There remains the important question of fortifications, on which there has been no expression, but which may come to the fore when the delineation of principles relating to the Far East have gone as far as seems possible.

Consideration of the Far Eastern problems was renewed today by the delegates of the nine nations sitting again as a committee of the whole, with the hope that further general principles could be incorporated in the agreement reached yesterday. In the main, the discussions are following the lines of the "ten points" suggested by China, whose delegates are confident that in the end most of these points will have been translated into actual agreements on policy.

All the present indications point to an "understanding" rather than a treaty as the form to be taken by the final far eastern agreement. Diplomatically, such an instrument would be classed along with the "gentlemen's agreements" of the past regarding China and would not require senate confirmation. There have been hints that the naval reduction agreement might also take that form but that is one of the details still to be adjusted.

Comparison of China's bill of rights with the four principles adopted by the conference yesterday discloses that the latter cover only two and a half of the "ten point" proper and one paragraph of China's introductory statement.

Widow of James J. Hill Died Today

By Associated Press Leased Wire
St. Paul, Minn., Nov. 22.—Mrs. James J. Hill, widow of the late James J. Hill, president of the Great Northern Railway, died at her home here this morning, following a long illness.

She was 75 years old and had been in failing health since the death of her husband in May, 1916. She will be buried beside her husband on the Hill estate's North Oaks Farm, north of St. Paul.

Born in New York City in 1846, Mrs. Hill came to St. Paul in 1854 and after completing her education in a convent at Milwaukee, was married to Mr. Hill in 1867. Until her husband's death she drove daily with him to his office here.

Mrs. Hill is survived by six daughters and three sons. They are Mrs. Samuel Hill of Washington, D. C. and Seattle; Mrs. Anson McKook Deard, Mrs. Michael Gavin and Mrs. George T. Slade of New York; Mrs. E. C. Lindley and Mrs. Earl Boeckmann of St. Paul; James N. Hill of New York; Walter J. Hill and Louis W. Hill of St. Paul.

Drilling For Oil in May Township

THINK HUGHES' SCHEME WOULD GIVE AMERICA BEST OF ARRANGEM'NT

Britain and Japan See More Ships Useless Within Decade.

Washington, Nov. 22.—(By the Associated Press.)—Naval experts of the three major powers still were reviewing today the highly technical questions that have arisen in connection with the American proposals for immediate reduction of the fleets and a ten-year naval building holiday. The British and Japanese officers appear to have found some details of the plan which will require treatment before there is final acceptance.

For one thing, the British have pointed out the effect on the fleets the American program would have if the full measure of Secretary Hughes' plan were carried into execution. The plan proposes absolute cessation of building for ten years; the fixing of the life of a battleship at twenty years, replacement building to begin seven years after the ship to be replaced was completed, this allowing three years for construction of the new ship.

The twenty year life rule alone is a novel one for other navies. Japan now uses eight years as the life of capital ships, beginning replacement within that period after a vessel is constructed. She has never yet worked out this eight year cycle, however, expecting with her present building program to attain it in 1928. Great Britain has no replacement schedule at present. For two years prior to the war she laid down five new battleships a year and for years previously four a year. This program is what maintained her "two-power standard" now abandoned. It did not contemplate a twenty year active life for the ships.

Britain's Situation.
Applying the proposed American replacement rule to the ships to be retained by each power under the same program, Great Britain would have in 1931 at the end of the ten year naval holiday, when she might begin replacement building, four battleships that dated back 22 years to the time their keels were laid, four going back 21 years and four 20 years. Her new battleships, the Royal Sovereign group of five were laid down in 1914 and completed in 1916 under war pressure. They would be fifteen years from date of completion and two years from the beginning of replacement vessels when the holiday ended.

One of the four British battle cruisers to be retained, the Tiger, was laid down in 1911. She would be ready for replacement also in 1931. The other three, the Hood, Renown and Repulse, were war-built and designed for action in the North Sea. Their value, except for the special purposes they were built to serve in the war, the prevention of German raiders from shooting up the coast of England, is problematical. Applying the twenty year life rule and the holiday decade to the ships America proposes to keep, eight of the eighteen would be twenty years or more from the date their keels were laid in 1931. Two of them, the Delaware and North Dakota, would be a year past their allotted 20 year span before replacement building could begin. They would be 24 years old from completion before the ships to replace them were commissioned. The newest American ships, the Maryland, California, Tennessee, Idaho and Mississippi, however, would still have almost a decade each of active life left in them when the holiday ended.

Japan's Fleet Status.
In the same way in the Japanese retained fleet, the oldest Japanese battleship, the Settsu, was laid down in (Continued on Page Two)

BAND'S SHARE OF MARDI GRAS RECEIPTS \$641

Total Receipts \$2050; All Who Assisted Are Thanked.

The Dixon Municipal band realized the sum of \$641.22 from the Mardi Gras celebration in Dixon last Friday evening, which will be applied to running expenses of the band and the purchase of new uniforms and equipment. The following authorized statement was issued by the band this morning:

The Dixon Municipal Band wishes to thank all those who assisted in making the Mardi Gras such a decided success—the committee in charge, the Chamber of Commerce, and especially the new Secretary-Manager E. R. Oxnam, the contestants for Queen and the public at large.

The sum actually raised was \$2,050.25 of which \$1,673.80 was expense, and the band realized one-half the balance which is \$641.22. The other half was turned over to Barbour and Schaefer the promoters, who were here for three weeks and the band wishes to state they were absolutely on the square with both the contestants and the band.

ITALY'S SOLE WISH IS THAT PEACE AND GOOD WILL ABOUND

Has No Fear of Any of Her Neighbors Dele- gate Affirms.

Washington, Nov. 22.—(By the Associated Press.)—Italy has no fear of any of her European neighbors, and her sole desire is to have the feeling aroused by the war give way to the spirit of peace, an official spokesman of the Italian delegation to the arms conference said today, following the lead given by Senator Schanzer in his speech yesterday before the conference. The spokesman declared that Italy had not even awaited the call for this conference to begin the reduction of her great army, which now has been brought down to less than 300,000 men. Moreover, the period of military service, which before the war was 24 years, already had been substantially reduced, it was explained, and probably would be cut to eight months.

There was no disposition on the part of Italy, it was added, to question the right of France to maintain a large army, inasmuch as she occupies a peculiar position. But this large army, it was stated, was not regarded as a menace to Italy.

Mountains a Barrier
The same statement might be applied to the Jugo-Slav military force, the spokesman continued. Italy's relations with that country were described as "the best," and she did not regard the little "entente" as a source of danger to her. Germany, not being a close neighbor, occupied a position it was explained, different from France and the natural defenses of Italy afforded by the Alps enabled her to ignore any threat from Russia.

As to Austria, the Italians cherished only the kindest feelings, Italy having given proof of that, it was said, when she went forward to succor the starving children of Austria.

There was no longer any reason for "bad feeling" between Italy and Austria, the spokesman said, adding that now the only desire was that the war spirit ought to terminate over Europe the peace of the world.

The present disposition of the Italian delegates, it was said, was to adhere closely to the agenda of the conference and not to broach any new problems connected with financial subjects.

Never Missed When He Threw Pie at His Wife; Seeks Divorce

By Associated Press Leased Wire
Chicago, Nov. 22.—Slapstick pie-throwing was the allegation on which Mrs. Rocklin asked divorce from her husband, Abraham Rocklin, the decision of which is pending today. She related one incident in court.

"I had just finished baking and did not want to put the hot custard in the icebox," she said, "so I placed it on the window sill. Abe came home and saw the pie. He complained because it was on the window sill. Then he threw it at me. He never missed me in his life when he threw a pie."

OPTIMISM ON EVERY HAND IN AMBOY AS BUSINESS PICKS UP

Probably Old Canning Plant Which Quit Few Years Ago.

Notwithstanding business depression in many parts of the country, the hustling little city of Amboy is moving along in the same old channel. Business is fair. No business man enters any complaint. The railroad shops are operating with plenty of men to do the work. Of course, there has been a slight depression in the local freight business, but not so noticeable as in other cities along the lines entering Amboy. A few men have been laid off, but for short times only.

The banks are not complaining. The garage men have about all of the work they can well do. Amboy is doing her share of building, and much improvement is being done by the city.

Amboy has a fire department second to no city its size in the state, and the city is doing some valuable improvement about the fire hall.

Professional men declare that their business is good and that they have about all they can attend to at this time. True collections are slow, but all have the optimistic view of things—and declare that economic conditions will get better very soon. Some men are idle—but some men are always idle. If any man in Amboy wants work there is something for that man to do. One man declared that he has been endeavoring for some days to find some men to do some work at his home, but so far has been unable to find them.

Milk Factory Busy.
One of Amboy's big concerns is the Amboy Milk Products Company operating a condensed milk plant. Twenty men are working in the plant every day. The company is shipping more than one car load of condensed milk each week, and one of the officials declared that the company has oversold one month ahead.

The company is purchasing 18,000 pounds of milk daily and is canning 8,352 cans or 114 cases daily. The company is in a position to operate on a larger scale, all machinery is there ready for operation, but the scarcity of milk is the only thing holding the company back. They are taking all the milk they can get.

On account of the economic conditions the farmers are not increasing their stock of cows, but when times get better and money is more plentiful for the farmer, there will be a great increase in cows thus enabling the company to operate the plant on a much larger scale.

The products of the plant are sold in the nearby cities, Sterling, Aurora, Rock Island, Davenport, Moline, and many of the smaller places.

The company has no difficulty to dispose of its products, and new fields are being opened each month. In time, and that time is not far away when this plant at Amboy will be one of the large condensing milk plants in the state. If additions to the original plant are required the company has made ample facilities for such extensions.

Strong Finances.
Financially the company is as strong as the rock of Gibraltar, several of the wealthiest men in and about Amboy are concerned in the plant. The men operating the plant are all experienced milk men, thus leaving nothing undone to insure success in the operation of the plant.

The citizens of Amboy point with pride to this particular industry and strangers to the city are soon made acquainted with its possibilities. Thus far about \$200,000 has been invested by the company, and if the time comes when more money is needed there are those in Amboy and vicinity who stand ready to aid.

The Amboy Milk Products Co., is a fixed institution, operating as a private concern and is in no way affiliated with a co-operative concern.

MACHINERY TO START FRIDAY AT MINNICK'S

Three Wells Will Be Sunk to Depth of 3,000 Feet.

Drilling for oil on the farm of George Minnick in Maytown will commence on Nov. 25th. All the drilling machinery for the project arrived in Amboy Monday afternoon over the C. B. & Q. railroad, and will be transported to the Minnick farm this week.

There are three drills, each to bore 16-inch holes, and each well will extend 3,000 feet into the earth.

A man named Stephenson will operate the drills, or he is the man who will do the drilling for oil. He is a former Mendota citizen and is familiar with the land on which the drilling will take place. For some years Stephenson believed that there was an abundance of oil in that part of Lee county and he is willing to make the test. Stephenson has been in the oil business in the Dakotas, and for some time has been employed in a similar capacity by the United States government. He has operated in some of the South American countries.

FATTY TRIED TO GET KEY TO MISS RAPPE'S BOUDOIR

By Associated Press Leased Wire
San Francisco, Nov. 22.—Further testimony by Jesse Norgard, former motion picture studio watchman, was first on the program today in the state's effort in Judge Loughback's court to convict Roscoe C. (Fatty) Arbuckle of manslaughter in connection with the death of Virginia Rappe.

Norgard worked at the Culver City studios where Miss Rappe and Arbuckle were employed. In August, 1919, he said Arbuckle offered him \$50 for a key to Miss Rappe's room. He declined the offer, he said.

Zey Prevost and Allice Blake on the stand yesterday described this hotel St. Francis party, which they attended, and at which Arbuckle is alleged to have fatally hurt the actress. Both said Miss Rappe moaned: "I am dying. He hurt me."

Neither, however, could say that she mentioned Arbuckle's name.

Cedar Rapids Boy, Running Away, is Picked Up By Cops

Sam Dennis, aged 13 years, whose home is in Kenwood, a suburb of Cedar Rapids, Iowa, was picked up by the police late yesterday afternoon near the Northwestern depot. The boy told the officers that he left his home last Saturday morning in company with a tramp, boarding a Northwestern freight train and riding to Clinton.

He stayed in a hobo camp in the railroad yards there until yesterday and then proceeded eastward in an empty box car. He was warmly clothed and had suffered very little from the cold. Chief Van Bibber telephoned his mother last night and she will arrive here this evening to take her son back home.

The boy tells a story of being brutally beaten by his father and says he left home when the father threatened to "break his back." He refused to return home voluntarily and his mother wired Chief Van Bibber that she would come to Dixon tonight to take him back home.

FORMER DIXON LADY IS DEAD AT BLAIRE, OHIO

A telegram was received by Dixon relatives this morning, announcing the sad news of the sudden death of Mrs. Louis Bickmyer, nee Fannie Mealey. Mrs. Bickmyer passed away early this morning at Blaire, O. where she had gone for a visit with her husband's parents. The family reside in Hammond, Ind. No particulars had been received by the family here late this afternoon, other than that the body would be brought to Dixon for burial.

DIXON PEOPLE WILL DEVOTE THURSDAY TO HOLIDAY OBSERVANCE

Very Little Business to Be Transacted Here Thanksgiving.

No TELEGRAPH THANKSGIVING
In keeping with its custom of many years standing The Evening Telegraph will publish no paper on Thursday, Thanksgiving Day, the suspension of business activities in the city, and the call of President Harding for a general observance of the day, making it appear that the employees of The Telegraph should be given the holiday to return thanks for the good things that have come to them during the year.

The Telegraph is truly thankful to its many friends for the fine patronage given the paper during the year which is closing.

Holiday hours will be observed generally in Dixon on Thursday, Thanksgiving. All of the banks and most places of business, including offices will be closed the entire day. The offices in the city hall and court house building will be closed all day. There will be no delivery on city or rural routes out of the postoffice. The general delivery window will be open until 10 o'clock with the carriers present to pass out mail matter to patrons calling at the window. The customary dispatch of mails will be made. The Western Union Telegraph office will be open from 8 to 12 in the morning and from 4 to 8 in the evening.

GERMANY PITIES JAPAN AND PLANS NEW COMBINE

Berlin, Nov. 22.—(By the Associated Press.)—Japan, although one of Germany's foes in the world war, continues to command increasing measures of sympathy and interest from the newspaper commentators writing on the Washington conference.

Such of the comment is given over to speculation as to whether Japan can avoid being "left at the post" in what is termed the jockeying for position in the race for prestige in the Pacific. It is also asked whether she will be able to escape "the policy of encirclement" to which Germany is represented as falling victim.

Should Japan emerge from the conference as an isolated power, the editorial writers believe she will be forced to seek economic and political orientation in the direction of Russia, with "terminal facilities" in Germany.

A "community of interests" comprising Teutons, Slavs and the yellow races is suggested as one of the possibilities to be reckoned with in making over the post-war world.

Thus Germany conceives a new constellation in which the fatherland is destined to shine brightly.

Seven Indicted for Leiter Booze Case

By Associated Press Leased Wire
Fairfax, Va., Nov. 22.—Seven men all of Washington, have been indicted by the Fairfax county grand jury today on charges of house-breaking and larceny in connection with the theft on Oct. 3 of liquors and wines valued at \$200,000 from the country home of Joseph E. Leiter, near Washington.

Believed by county prohibition authorities to have been the biggest liquor theft of the prohibition era, with the aid of motor trucks, used to carry away the liquor after access to the wine cellar had been gained by burning through a steel door with an acetylene torch. It was committed in the temporary absence of the caretaker.

FEMALE HOOCH RUNNER FREED AFTER PAYING

Settled Fine Yesterday; Companions Still Held.

Fred and Henry Kluger, of Rock Island, who were arrested with Minnie Adams last Friday afternoon at Amboy for transporting liquor, are still held in the county jail, unable to furnish bonds or to secure sufficient funds to pay their fines.

Repeated telegrams and long distance telephone messages to Rock Island since their arrest have thus far failed to produce bondsmen or funds. The woman yesterday received sufficient funds to pay her fine of \$50 and costs on a charge of disorderly conduct assessed by Justice Hines of Amboy, and was released from custody. She left at once for her home in Rock Island.

From Rock Island it is learned that Fred Kluger is the proprietor of a bar in the west end of that city. Henry Kluger is his brother but is not a partner in the business. Those who were left in charge of the bar are alleged to have admitted knowing of the arrests here but refused to make any further statements.

AMBOY PRODUCTS CO., ENJOINED BY JUDGE, IS NOT MILK FACTORY

Milk Products Co. Sets
Pace for Other Industries There.

Saturday's Telegraph carried a story by the Associated Press to the effect that Federal Judge George A. Carpenter that day had enjoined Harris Parker, the Co-Operative society of America and officers of the Amboy Products Company from disbursing assets of the Amboy Products Company except in the regular course of business. A full accounting of all transactions was ordered.

The Telegraph sent one of its staff reporters to Amboy Monday to make a full and complete investigation of the matter as far as Amboy was concerned. It has been two years or more since the Amboy Products Company has been operating in Amboy. Somewhere in the south there is a concern that is selling products labeled Amboy Products Company, but this concern is no way whatever concerns Amboy. It is said that the company has offices in Chicago where business is carried on at the present, but to what extent no one in Amboy knows.

Was Old Canning Plant.
Some years ago the Amboy Products Company was organized for the purpose of raising vegetables and canning the same, labeled Amboy Products Company. The company acquired about ten acres of land adjacent to Amboy and for awhile operated on a small scale. A canning plant was built and it was operated for a while with some success. A number of Amboy parties purchased stock, but as far as is known no one realized anything on their stock. Some time ago the canning plant was sold to other parties and not so very long ago the ten acre tract of land was disposed of. It is rumored that in the near future the canning plant will again be put in operation.

As far as Amboy is concerned no harm will come to them on account of the order of Judge Carpenter. As far as Amboy is concerned the Amboy Products Company is a thing of the past.

SCHOOL BOY IS KILLED ON WAY HOME MONDAY

No One Saw Actual Accident Which Took His Life.

Randall Wayne Bunnell, a 12 year old school boy, was killed almost instantly late yesterday afternoon on the Lincoln Highway just west of the Borden Milk Factory at the edge of Dixon when he was struck by a Dixon Fruit Company truck. A jury impaneled by Coroner Samuel J. Whetstone of Lee county, brought in a verdict of accidental death after an inquest held at the Walter Preston undertaking rooms, presided over by Judge Whetstone.

The story of the accident, as told by various witnesses heard by the jury, was practically as follows:

Randall, who boarded at the home of Mrs. Henry Carlson on the Lincoln Highway west of Dixon, was on his way home from school and was riding his bicycle. The fruit company's truck, loaded, and hauling a loaded trailer, was also going west and caught up with the lad about two blocks east of the Loveland bridge, a bridge with high iron sides, just west of the milk factory.

Driver Called to Him

The truck was driven by Elvin Eshelman, 110 W. River street, Dixon. The boy kept ahead of the truck for short distance and when Eshelman saw three cars approaching him from the west he yelled at the boy and warned him, he says. The truck passed the boy before he got to the bridge, according to Eshelman, but it is believed that the lad was riding directly alongside of the truck when it started onto the bridge and when the truck driver pulled his machine over to the right side of the road to make room for the approaching cars to pass, the little fellow on the bicycle, either struck by the side of the truck trailer and thrown against the bridge and crushed, or he fell under the wheels of the trailer.

No one saw the accident, but one witness, Richard T. Hurley of Moline, a salesman, who was approaching from the west, nearly a block away, saw the boy and the truck come onto the bridge together, and saw the boy ride his wheel in behind the truck and then suddenly his body seemed to be shot out into view again. The boy was on the right side of the truck, and between the truck and the railing of the bridge. Evidence placed the truck and trailer at about three or four feet from the bridge railing.

Tell us, May, driving a Wilbur Lumber Company truck, was approaching the bridge from the west when the accident occurred. He saw the boy before the accident when the truck turned out to pass him and after the truck passed he saw the boy on the floor of the bridge. A colored man, Major Ashford, driving a Ford truck, was ahead of Mr. May and also saw the boy and ran to his assistance. Ashford and May put the injured boy in the Wilbur Lumber Company's truck and Mr. May drove him immediately to the Dixon hospital. When he arrived there Dr. Murphy pronounced the boy dead. Dr. Ives, who had been telephoned for from the scene of the accident, also later shortly afterwards and the latter physician, testified before the coroner's jury, detailing the nature of the injuries.

Spine Was Broken
Dr. Ives said that the entire chest cavity seemed to be crushed and the spine was broken and that death was probably instantaneous.

Richard Hurley, who saw more of the accident than anyone, shouted to Eshelman, the driver of the truck that stopped him, which Eshelman said was the first intimation he had of the accident. Eshelman ran back and helped put the boy on the truck and rode to the hospital with him.

The Dixon Fruit Company, while assuming no blame in the matter, has offered to pay all expenses in connection with the deplorable affair.

Major Ashford, colored, was driving the car nearest to the bridge where the accident happened, and he said he did not see the boy before he was struck but when the fruit company truck passed by he saw the boy on the bridge, tangled up in his bicycle and Ashford, who had stopped his car west of the bridge to allow the big truck to pass him, alighted and went to help the lad. All of the witnesses except Hurley were so close to the west bound truck that they could not see the boy, who was north of the truck, when he was struck. The bicycle was not damaged. The boy's body was about two feet from the railing.

One theory is that the boy did not know there was a trailer behind the truck and that when the truck passed him he tried to turn his wheel in behind the truck, colliding with the

Neighbor Held for Murder of Fiancee of St. Louis Girl

By Associated Press Leased Wire
St. Louis, Mo., Nov. 22.—A neighbor of Miss Agnes Aubuchon, whose fiancée, Francis Fee was found slain on a lot in the outskirts of this city, today was being held in jail following the statement of the girl that the suspect had visited her a few hours before her fiancée had called on her Sunday night. Bloodhounds put on a trail last night led police officers to the prisoners home, a few doors from that of the girl.

The body of the slain man was discovered on a cinder path leading through a vacant lot near the home of his fiancée.

DEMENTTOWN NEWS

Back on the job again.

Rather breezy this morning. Our coal men are very busy.

Isadore Elchler was with us this morning on his way to Chicago. His train was somewhat late, thus affording him an opportunity to observe some of our good things.

George Brooks passed along the avenue today on his way to Walnut to visit old friends.

Jacob Wolkne, also was a visitor this morning. He took the early train for Chicago.

Again we welcome the meat car. All of our butchers were busy stocking up for the week.

Barney Killen, engineer on the Northwestern switch engine has been bumped. Barney will in all probability take an engine at Nelson. Scotty Wallace from the way freight will take Barney's place. Barney is visiting in Chicago for a few days.

Arthur Collins, fireman who was bumped recently, will take an engine run between Aurora and Chicago.

A. B. Whitcombe rushed to the Northwestern station this morning to get the Peoria train, but he arrived a few minutes too late. A. B. had to transact business on some point east on the Northwestern, so he went that way instead.

Col. Charles H. Noble honored the avenue this morning. It has been some time since the Colonel has been daily visitor. "It seems good to get back with the avenue folk again," declared Col. Noble.

We saw Col. W. B. Brinton for a short while this morning. He will be with us until tomorrow when he will return to Highland Park, where he will get ready for his turkey dinner Thursday.

Frank Stephan of the plow company made a business trip to Racine, today. Frank will be back for Thursday's dinner.

Major Brinton went quail shooting yesterday and brought home several fine rabbits. No quail.

C. E. Gardner, Rochelle's popular attorney, and a party of friends dined at the Seagren Inn last night. Clarence was returning from a duck hunting shooting expedition near Peoria. Not many ducks. He said there were 300 hunters in that vicinity while he was there.

Miss Alta Flemming has returned from a visit with friends in Chicago. Our merchants tell us that there will be plenty of turkeys to take care of all on the avenue who desire turkey for Thursday's dinner. They are selling at 50¢ a pound, dressed. You wish them dressed, don't you?

Sam Huggins says his nephew, Leon Huggins, will enter a contest with a crack boxer at Davenport on Wednesday night. Sam is anxious to witness the bout.

Harold Jones entertained over Sunday Physical Director Edy of Freeport. Edy is a member of the high school faculty at Freeport.

Frank Rosbrook went to Chicago today on business.

John P. McIntyre declared this morning that the avenue coal dealers had about 1000 tons of coal ready for disposition.

James Reynolds of the Illinois Central office forces went to Chicago this afternoon to be with his brother in law, George Downey, who will undergo an operation at one of the hospitals tomorrow. Mr. Downey was injured about four months ago while working with a switching crew at La Salle. He has been in the hospital now for about four months. His mother, Mrs. Margaret Downey, who was with her son for some weeks, returned home last evening.

Mrs. C. E. Shepherd went to Franklin Grove this morning to give music lessons today instead of Thursday, owing to that day being a holiday. Mrs. Shepherd is teacher of music in the schools of Franklin Grove.

The monophane you saw flying over the city late Saturday afternoon belongs to a friend of the Reillys here and he was on his way home from Omaha. He came down in the Buffalo field east of this city. He remained here until Sunday forenoon. He took with him to Chicago, Mrs. Mike Reilly, wife of Switchman Reilly, and who will visit friends in Chicago for a few days. The party left Dixon around 10 o'clock and Mrs. Reilly wired her husband that she arrived in Chicago shortly before 11 o'clock. That's certainly going some. Mrs. Reilly is the first avenue lady to make the trip to Chicago through the air. When she returns she will have an interesting story to tell. You will read the story in the Doings.

The Illinois Central switch engine made a trip to Amboy Sunday for a general overhauling.

THINK HUGHES' SCHEME WOULD GIVE AMERICA BEST OF ARRANGEMENT

(Continued from Page 1)

1911. She would have but three years of active life left when the holiday. Four other of her six battleships, the Fuso, Yamashiro, Ise and Higua, would have from four to five years to go before they were scrapped as worn out and replaced. The Nagato alone would have a decade or more of serviceable life left and the four battle cruisers, the Kirishima, Haruna, Hiei and Kongo, also would have only four or five years before they would be dropped from the lists and replaced.

Viewed in this way there is some reason to believe that both the British and Japanese experts think the United States would come to the end of the holiday prepared in far better shape than either of the other two powers. That appears to be the basis of the discussions now proceeding and perhaps of the Japanese desire to retain some of the newer ships, scheduled for the scrap heap by the American plan, rather than destroy them. If each navy, as seems likely, felt it

necessary to take immediate advantage of the recoupment of capital ship building in 1931, it is suggested enormous projects would have to be launched in that year.

The situation apparently would weigh more heavily on Japan than on Great Britain because under the 5-5-3 ratio of Secretary Hughes' plan already accepted by the British, the British would have to provide for a 20 per cent reduction of their fleet by 1931 when the ratio would apply. Japan would not face any such reduction, however, and must get to work promptly on new ships if she was to maintain even the proposed "5-5-3" ratio.

Tentative Program.

It seems possible that Secretary Hughes contemplated a still greater reduction in tonnage than the 500,000-500,000-500,000 capital ships aggregates laid down in his replacement plan. He was stating the case for the United States, with the possibility of an agreement on Far Eastern and Pacific questions in the background and he used this language: "With the acceptance of this plan the burden of meeting the demands of competition in naval armament will be lifted. Enormous sums will be released to aid the progress of civilization. At the same time the proper demands of national defense will be adequately met, and the nations will have ample opportunity during the naval holiday of ten years to consider their future course."

There seems little reason to doubt that the American replacement program, to apply after the holiday, is largely tentative, except in the "5-5-3 ratio" principle. It was expected by the American delegates, without question, that a ten year test of the practical results of other agreements reached as to the Far East would have the way for still further naval reductions at the end of that time.

SCHOOL BOY IS KILLED ON WAY HOME YESTERDAY

trailer and being thrown under its wheels. Another possibility is that the boy, hemmed in between the truck and the bridge railing, lost control of his wheel and was struck by the side of the truck or trailer and thrown against the side of the bridge.

Driving Slowly
All evidence indicates the driver of the truck was going at a very moderate rate of speed, between 10 and 15 miles per hour.

Eshelman says that when he first caught up with the boy, the lad speeded up and rode away from him, and looked back laughing. Later, he says, the boy dropped back even with him and he warned him that some cars were coming and he would have to turn over close to the curb.

Eshelman was headed for Sterling. The hour was about 4 p. m. or a little later. He says the last he saw of the boy was when he called to him to look out, and passed him. He did not know whether the boy might have been holding to the back of the truck or not.

Was School Boy

Randall Bunnell was a school boy in the sixth grade at the Loveland school. His father is G. T. Bunnell, 424 Barker avenue, Dixon, and he has a brother, George Elwin and sister, Urith Glendora. His mother died three years ago, and the boy has been boarding at the home of Mrs. Henry Carlson, west of Dixon, where he has been doing chores to earn his board.

EXPRESSION WAS ORIGINALLY JOBS—

It is a long way to go to the days of Job for a "modern" expression! The phrase, "Escaping by the skin of the teeth," may be found in the 20th verse of the 19th chapter of the Book of Job: "My bone cleaveth to my skin and to my flesh, and I am escaped with the skin of my teeth."

TO ATTEND SON'S WEDDING IN CHICAGO—

Mrs. O. D. Sweetman of 904 North Jefferson avenue will leave Thursday morning for Chicago where she will visit her son, Walter, and daughter, Mrs. Maggie Crawford. Mrs. Sweetman will be accompanied by her little granddaughter, Anna May Crawford. On Wednesday evening, Nov. 30, at 8 o'clock at the home of the bride's parents, in Chicago, Walter B. Sweetman, son of Mr. and Mrs. O. D. Sweetman of 904 North Jefferson avenue, will be united in marriage to Miss Emma Adeline Beck. It is to be a pretty home wedding. Mr. Sweetman since residing in Chicago for the last few years has established a thriving restaurant business on the west side and his Dixon friends will unite in wishing him every happiness. His mother, Mrs. Sweetman, and his sister, Mrs. Crawford and family will be guests at the wedding.

BIBLE CLASS POSTPONES MEETING—

Because of the funeral of the little Bunnell boy who was killed in an accident Monday evening, the meeting of the Wednesday Afternoon Bible class has been postponed, as the teacher, Rev. Unangst, will have charge of the services. The meeting will be held one week from Wednesday.

BLACK 'UNDIES' OF CREPE DE CHINE—

Black underwear in crepe de chine with black georgette makes a popular combination.

Something new is a suede apron cut in strips that are studded in steel beads forming a pattern. The apron has an all around narrow belt which hooks in the back the strips suspend-

ing from the belt being about three-eighths of an inch wide and reaching down about 12 inches. The strips come only in the front.

The colored dots which were so good last season on veils are being shown again this year. Gold and silver veils are also being shown. Suspender skirts are being shown in small collections.

IF YOU ARE WELL BRED—

You will, in sending invitations for the formal dinner which you are giving to introduce visiting friends, put on the invitation the phrase, "To meet Mrs. ———." It is equally correct to enclose a small card bearing the phrase.

You will, in giving a small dinner, write to those whom you wish to invite. This form of invitation is quite as correct as the engraved card.

You will, in inviting a last-moment guest to fill the place of one unable to attend, inform the guest in a cordial note of the circumstances instead of making a bad matter worse by attempting concealment of the condition.

ANNUAL FORMAL DANCING PARTY—

The annual formal dancing party given by the Dixon Country club, will be held at the Rosbrook hall Tuesday evening, Nov. 29. Invitations have been sent out for the party which will be the leading social event of the winter season, to several of the surrounding towns. The committee in charge of the party is composed of George W. Hawley, chairman, Harry A. Roe, Oliver M. Rogers, Frank Cahill, W. W. Gilbert and Floyd Chapman. Patronesses for the occasion are: Mesdames O. M. Rogers, Warren C. Durkes, Harry A. Roe, John M. Batchelder, Alfred A. Doolittle, Floyd D. Chapman, Wilbur W. Gilbert, Frank J. Cahill, Edward D. Alexander, William J. McAlpine, Henry S. Dixon and George W. Hawley.

TO BE MARRIED THANKSGIVING DAY—

Mr. and Mrs. B. A. Forster of Sterling announce the approaching marriage of their daughter, Miss Theresa Marie to Herbert Joseph Long of Harmon. The marriage will occur on Thanksgiving Day morning at 9 o'clock at the Sacred Heart church. Rev. Father Schulte will conduct the ceremony. Both parties are very well known here.

SURPRISED MRS. KRAMER—

Saturday evening at the home of Mr. and Mrs. Henry Kramer a company of friends gathered to assist Mrs. Kramer in celebrating her birthday anniversary. The evening was delightfully spent in games and music and a delicious luncheon was served. On departing for their homes the guests left the hostess a number of handsome gifts in memory of the day and many good wishes.

CHURCH NOTES.

(Continued.)

In his sermon on dancing delivered at Grace Church last Sunday evening, Rev. C. G. Unangst said that the "prince of this world" is still working, and his specialty seems to be "animalism." Little by little the bars have been lowered and there does not seem to be common decency in dress, deportment, amusements, conversation or conduct. Evil is at work everywhere. A man collected the stories of three hundred girls of good American parentage, who were working each day and living wrong life. In one rescue home there were fourteen school girls at one time who had been mothers. Experienced workers say that nurses, stenographers, salesgirls, factory girls, and girls from our best homes are found among those who "have slipped and fallen."

There are many elements which enter into the marring of these human vessels—heredity, lack of home training and right religious teaching, intemperance, congestion, loose life, economic conditions, immoral literature and suggestive pictures, unclean amusements and uncontrolled inborn tendencies.

Referring to the dance the minister said that it cannot be reformed, because the majority of the people who indulge in it are not willing to have it reformed. Play safe, and stay from it.

There was a large congregation and many expressed their appreciation of the truth that was presented.

GRACE CHURCH ACTIVITIES.

Grace Church congregation will unite with the churches of Dixon in the Union Thanksgiving service to be held in St. Paul's Lutheran church on Thursday forenoon at 10 o'clock. All members and friends of the church are urged to be there.

The prayer meeting will observe a Praise Service at the church on Wednesday evening at 7:30 o'clock. The pastor will give an address on "Seven Special Reasons for Gratitude at this Time." This will be followed by testimonies of praise. There will be good singing.

On Thursday evening the church will have a Thanksgiving Fellowship Meeting. The people will meet in the auditorium for a brief service and then pass downstairs for a social time. Refreshments will be served. Strangers and friends of the congregation are cordially invited.

Next Sunday will be observed as Bible Day. There will be an interesting program in the evening. Special sermon in the morning. You are requested to bring your Bible.

The Country club bowlers will assemble at the Y. M. C. A. alleys Tuesday evening at 8:15, immediately following the Chamber of Commerce luncheon and forum meeting. Considerable interest is being shown among the golfers on the alleys and some spirited games are being rolled.

Didn't Know His Brother

"My brother got so bad with stomach and liver trouble that when I saw him after a year I didn't know him. He was emaciated and yellow as a pumpkin and was often in great pain. He couldn't have lived long the way he was going. Doctors and medicine gave him no relief. I picked up a little booklet on May's Wonderful Remedy, which he said described his case perfectly. The first dose of it gave him great relief and in a month he was good as ever." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At all druggists.—Adv.

TURN TO NATURE'S WAY FOR HEALTH

Take ARCOLA as a Gift from your Heating Engineer

We mean it—a gift.

Your Heating Engineer will tell you that three average winters will pay back its cost to you in the fuel it saves.

And think of the satisfaction of having every room warmed by its own American Radiator—the same kind of radiators that warm the White House itself.

Think of the joy of having all the hot water you want for washing or bathing, for ARCOLA can heat the kitchen tank, too, without subtracting from the warmth of the house.

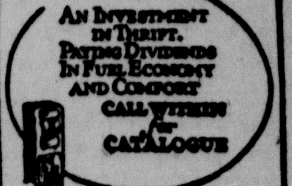

Surely all this comfort is worth the little trouble of telephoning your Heating Engineer. He will gladly call and make an estimate. You will be surprised to learn how little ARCOLA costs and how quickly it can be installed.

Don't go through another winter bathing and dressing and eating in chilly rooms. Take a little comfort out of life—especially comfort that pays its own way. Take ARCOLA from your Heating Engineer—take it as his gift.

The red and yellow card at the right is the sign of a Heating or Sanitary Engineer (you used to call him Steamfitter or Plumber) who can show you ARCOLA. Look for it in his window.

It will pay you to consult him twice a year as you do your Doctor or Dentist. His report on your heating and plumbing costs little. It may save much.

MACHINES

Sugar is now being correctly
weighed and sealed in dust proof
packages, by machinery, in a 25th of
the time required to "put it up" by
hand, says the American Sugar Bul-
letin.

Machines thus take the place of
human labor—releasing, for other
useful work, those who would other-
wise be employed in packaging sugar
by hand. Human labor really loses
nothing.

GIANT

The three ships in which Columbus
sailed to discover America were con-
sidered fine vessels in their day. Yet
the three combined could carry only
120 people, with provisions.

Next April, the new 56,000 ton liner
Majestic will make its first trip
across the Atlantic, to New York. It
will carry 4100 passengers and a crew
of 1000. Included in the cargo will be
6000 game birds, 80,000 bottles of ale
and similar delicacies for passengers.

Compare the Majestic with Colum-
bus' ships. Takes an instance like
this to make us realize the tremen-
dous progress man has made. In-
ventors are the greatest producers.

PRICE

A plate of corn cakes in a city
restaurant costs as much as a farm-
er is getting for a whole bushel of
corn, says Capper's Weekly. And it
takes 20 carloads of corn to pay for
a tractor and a plow of the cheapest
make.

With values out of line like this,
the farmer cannot buy what the city
man manufactures. This is the
greatest stumbling block to a return
of general prosperity. Time will bal-
ance things. Prices, like water, seek
their own levels.

YOUR PHILOSOPHY

You, at some time or other in your
life, have sat late at night before a
fireplace with a group of friends.
Conversation drifted into an ex-
change of philosophical views—why
we are here on earth, why so many
fail, and what constitutes success.

Out of such discussions, like a
mocking bird, rises a glaring truth
—that every individual develops a
personal philosophy of life to fit his
degree of success or failure.

Aesop's fox, who could not leap
high enough to pluck the grapes,
comforted himself with "The grapes
are sour."

The man who has accumulated so
much money that it makes him un-
easy, has for his alibi: "It doesn't
matter how much wealth a man has,
as long as he doesn't misuse it."

Mrs. Wiggs of the cabbage patch,
in dire poverty hypnotized herself in-
to a philosophy that she was happier
without riches.

Socrates and his soap-box orators,
not having much material wealth,
philosophized that nothing matters
except pure intellect.

The prize in this line goes to the
celebrated Athenian philosopher-
lover, who, when a king heard of his
wisdom and promised him any gift
he wanted, answered, "Then step to
one side. You are obstructing my
sunlight."

One of the finest temperance lec-
tures of all time was delivered in
Kansas by a speaker so drunk he al-
most had to be propped up.

Actually, he did not believe in tem-
perance, otherwise he wouldn't have
kept the distilleries working over-
time.

But, realizing that he was not of
normal temperance, he orated his
"don't-drink" philosophy, as an alibi
for his failure, and hypnotized him-
self into believing that he really be-
lieved it.

Similarly, you are apt to hear a
great speech on honesty, by a man

who wouldn't hesitate at robbing an
orphan asylum.

This development of elastic philo-
sophies to fit personal failure, is a
dangerous form of alibi.

Unless a man constantly guards
himself he is apt to fall into a state of
auto-hypnosis in which he shoulders
the blame, for his short-comings, to
something other than the real cause
which is—himself.

Hence we have, in America, an
alarming growth of fatalism.

It's a good idea, occasionally, to
pick your philosophy up by the nape
of the neck and submit it to the acid
test of Emerson's Law of Compensation—that all conditions are the log-
ical results of definite causes.

DAMAGES FOR LYNCHING

Joe Stewart, a negro of Laurens, S.
C., was taken from jail by a mob and
hanged a year ago last April. Pos-
sibly he deserved to be hanged, if the
thing had been done regularly and
legally, though that is not altogether
clear.

The charges against him, however,
became unimportant in the face of
this fact: A Laurens jury, instructed
thereby by a Laurens judge, has de-
cided that that mob had no business
hanging Stewart, and that Stewart's
wife is therefore entitled to compensa-
tion for his death, and has awarded
Mrs. Stewart \$2000, to be paid out of
the county treasury, at the hands of
the authorities who failed to prevent
the lynching.

This, in South Carolina, is cer-
tainly impressive. It would be im-
pressive anywhere. There is prob-
ably no better preventative of lynch-
ing, except the personal punishment
of the lynchers. It would always be
hard to lynch a criminal or suspect
in the name of the community if the
community that was appealed to
knew that it would have to pay for
the privilege.

MOONSHINE

Price of "moonshine" liquor falls to
\$2 a gallon in the Virginia hills.
Thirsty Virginians who a few months
ago paid \$15 a gallon may be cheered
by the news—but not for long.

The makers of "white moon" find
the work unprofitable at \$2 a gallon.
They stop manufacturing kikes.

Shortage of liquor made the big de-
mand. The demand made high price.
High price caused over-production
and ended this shortage. Prices fell.
That's the history of all prices, round
and round. Extremes meet.

GRASSHOPPERS

Ninety thousand dollars for a sel-
entific study of the grasshopper is
asked by a bill introduced in Con-
gress. A waste of money? Not if
properly handled, not if it brings
farmers a step nearer to an end of
the grasshopper pest that often de-
stroys many times \$90,000 worth of
crops in a single day.

The boll weevil has just destroyed
\$400,000,000 worth of cotton. Now
the European corn borer appears in
northern Ohio and threatens to
spread west into the great corn belt.
Money for war against insect pests
is more sensible, times over, than
money for war against humans.

SHIPMENTS

Better business conditions are re-
ported by American Railway Assoc-
iation. It says that, in the week
ended Sept. 23, number of idle freight
cars was reduced 18,838. That means
some one is buying more, some one
manufacturing and shipping more.

Idle freight cars, says the report,
still exceed 400,000. That shouldn't
cause worry. It's only one car in
every six of all those owned by rail-
roads. Country would be lucky if all
industries were working five-sixths
capacity.

of commodities, raising the stand-
ard of living.

PRESENTING A FACT

"If it has been a success," said
Secretary Hughes of his disarrangement
speech, "it is because we have been
able to present the delegates with a
fact."

"Fact" was perhaps not the best
word. A fact is rather a dead dona
than a future plan. Yet what the
secretary means by this word is
plain. It was not a fanciful theory,
not an ethereal ideal that he present-
ed to the conference, but a practical
proposition—a plain, four-square
schedule, the working blue-prints, so
to speak, all ready for the craftsman

OUR NATIONAL BIRD

BY DR. WM. E. BARTON.

Our national emblem is the bald-
headed American eagle. He is a noble
bird, proud, beautiful, mighty, king of
birds as the lion is king of beasts. He
soars with a marvelous grace, and
power; and when he swoops upon his
prey he is terrible.

But America is not the only country
that claims the eagle as its own.
Russia and Prussia insist that the
eagle is theirs. There are not enough
noble birds and beasts for the nations
that are and have been and are to be.

Rome adopted the eagle as its na-
tional emblem many centuries ago.
That does not give Rome and perman-
ent right to our bird; and the eagle is
our as much as it ever was Rome's.

But we have one bird that is our
very own, and that is the turkey.
That bird grew all over America
wherever the Indian corn was culti-
vated, and that was all the way from
New England to Mexico and even far-
ther.

When Cortez in 1519 first reached
the realm of the Aztecs, he was feast-
ed by Montezuma with royal splendor,
and the meat was roast turkey. The
Aztecs had already domesticated the
fowl. It was plentiful also in its wild
state there and north of the Rio
Grande.

The turkey was taken by the Span-
iards first to Spain and then to other
Mediterranean countries, and
thence to the eastern nations of
Europe and the north as well. On
June 27, 1570, when Charles IX.
of France married Elizabeth of Austria,
a turkey imported from the wilds of

who are now attacking the job.

Just that four-squares, that
matter-of-fact detail, is what makes
the Hughes program reassuring to
the delegates even while they ques-
tion some of its details.

Everybody is relieved that no time
is to be wasted at the outset on gen-
eralities, no month or months of
fussing before getting down to busi-
ness.

MARRIAGE

Marriage bureaus are doing a land
office business in Germany. Agents
bring prospective man and wife to-
gether for a registration fee of 10
marks.

This commercialization of sex, due
to an excess of women, is the vilest
aftermath of war. Germans, how-
ever, have not legitimized polygamy as
they did after some of their past
wars. A definite step forward. The
home is the great war sufferer. It
gains with every blow struck at war.

Approximately 6,000,000 persons will
pay income taxes in 1922.

America graced the feast.

The Pilgrims of Plymouth had tur-
keys on the first Thanksgiving day.
England made the Christmas goose
national and notable; but America has
made the turkey international and
permanently famous.

If we must divide this eagle with
Rome and other nations, we have an
indefeasible right to the turkey. It will
not displace the eagle as an emblem,
but it is vastly better than the eagle
when served on the Thanksgiving
platter.

Common Sense Ways to Keep Well

SUFFICIENT SLEEP

BY DR. R. H. BISHOP

Sleep, in sufficient quantity to
thoroughly repair the worn-out tis-
sues every 24 hours, is one of the
prime requisites given by many au-
thorities for a long life.

The number of hours required for
sleep for an adult varies from six to
10, according to the temperament,
vigor, duties and mental condition of
the person.

Many say that women need more
sleep than men. It is claimed by
some that persons who think and
work fast will sleep more in an hour
than slow people and thus require
fewer hours for rest. This is false
and absurd reasoning.

Persons of active, energetic, highly
nervous temperament do not build up
more readily than others and by great
activity of mental force added to all
they do, wear out more rapidly,
hence require more sleep—not less
than eight hours, and some as many
as 10.

They may seem to require less be-
cause they are so much interested in
whatever claims their attention, that
after a moderate amount of sleep they
find it easy to be wide awake.

Energetic people need not be afraid
of sleeping too much. Persons who
feel uncomfortable after sleeping

too much. Persons who feel uncom-
fortable after sleeping may generally
trace their unpleasant feelings to
other causes than to too much
sleep, which may have been heavy
because of an unhealthy condition of
the blood, want of ventilation or ob-
structed circulation from improper
clothing or position.

No one should become so fatigued
by work of muscle or brain that a
good night's rest will not follow and
afford complete recuperation.

It is important to have several
hours' sleep before midnight and bet-
ter to sleep during the shades of night
than when the sun bids all to be
astir, yet it is better to take a nap
during the day than not to sleep
enough. Indeed, a little nap before
the noon meal will rest the nerves
and promote digestion.

Do not sleep just after eating as
it retards digestion. Stimulants of
any kind should not be resorted to in
the hope of gaining strength. An
increase of vigor can only be had
from the nutritive particles in the
blood, which were obtained from the
food previously eaten and has been
oxygenized by contact with good air
in the lungs and by the rest which
sleep affords.

ADVENTURES OF THE TWINS

by Olive Roberts Burton

THE GREEN SHOES

"I think," said the Mushroom, "that the entrance to the 'Land of Un-
derneath,' where Pim Pim reigns, is just by the dog-wood tree."

How quickly the Twins slipped off
their own little stout brown shoes,
and how excitedly they slipped on the
wonderful magical green ones that
the fairy mushroom had brought
them. They knew the power of those
wonderful shoes, how, with just the
merest scrap of a wish, they would
carry their wearers to the ends of
the earth, up to the stars, under the
ocean, over the mountains, and into
any part of Fairyland. And now they
were going under the earth and into
a part of fairyland where the Brown-
ies lived. They were going to help
Mr. Pim Pim to gather up all the
things for the Christmas trees. Of
course Mr. Pim Pim doesn't trim
the trees, but you've no idea how
Santa depends upon him and the
Brownies for help. They get him all
sorts of bright dyes for tree-toys out
of the secret places under the earth.
Sacks full of golden-glitter and silver
shine, boxes of gleaming green and
blazing blue, cases of ruby red and
sapphire shine, and whole pounds of

glittering, glowing, sparkling, won-
derful white to put over everything.
Now, you know, my dears, how the
good Mr. Santa gets his wonderful
colors to dye all of his ornaments for
the Christmas trees. From Mr. Pim
Pim and the Brownies, and who
knows? When you look at your tree
this year you'll never know but that
Nancy dug up some of the beautiful
blazing blue for the lovely glass ball
near the bottom, or that Nick helped
Mr. Pim Pim to find the crystals of
ruby red to color the big glittery star
at the top.

"I think," said the Mushroom, "that
the entrance to the 'Land of Under-
neath,' where Pim Pim reigns, is just
by the dog-wood tree. Yes, I re-
member perfectly, that's just where
it is, to the left of those stones."

NORTHWESTERN TAX COMMISSIONER HAS FIGURES ON DIXON

Estimated True Value of Lands in County Also Given.

The estimated true value of farm land in Lee county, as fixed by T. A. Polleys, tax commissioner of the Chicago & Northwestern railroad, and computed in accordance with the assessment ratio process used by the tax commissions of Wisconsin and Minnesota, is \$245.25 per acre. The figures are given in a bulletin just issued by Mr. Polleys, in which he states that the figures are based on the sales and assessments during the period 1915 to 1921, inclusive.

The report shows that during the six years there have been 802 transfers in Lee county, involving the sale of 52,629 acres, the estimated average value being as announced above. The commissioner also estimates the 1920 assessed full value of rural general personal property per acre at \$12.70.

Dixon Real Estate.
Concerning the City of Dixon, Mr. Polleys gives the following figures: 1921 estimated population, 8290; number of transfers, 514; 1921 estimated true value of real estate, \$12,140,000; per capita, \$1,464.

URBANA, ILL.—Don Peden, left half back, was elected captain for 1922

FOR INDIGESTION, GAS, SOUR, ACID STOMACH, TAKE "DIAPEPSIN"

"Pape's Diapepsin" is the quickest, surest relief for indigestion, gases, flatulence, heartburn, sourness, fermentation or stomach distress caused by acidity. A few tablets give almost immediate stomach relief and shortly the stomach is corrected so you can eat favorite foods without fear. Large case costs only few cents at drug store. Millions helped annually—Adv.

Diamond Dyes Don't Streak, Fade or Run

Buy "Diamond Dyes"—no other kind—then perfect home dyeing is guaranteed. Even if you have never dyed before, you can put a new, rich, fadeless color into your worn, shabby dresses, skirts, waists, stockings, coats, sweaters, draperies, hangings, everything, by following the simple directions in every package of Diamond Dyes. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

TO REDUCE DANGEROUS VARICOSE VEINS

People who have swollen veins or bunches should not wait until they reach the bursting point, which means much suffering and loss of time, but should at once secure from any reliable druggist a two-ounce original bottle of Moone's Emerald Oil (full strength).

By using this powerful, yet harmless, germicide treatment improvement is noticed in a few days and by its regular use swollen veins will return to their normal size, and sufferers will cease to worry. Moone's Emerald Oil treatment is used by physicians and in hospitals and is guaranteed to accomplish results or money returned.

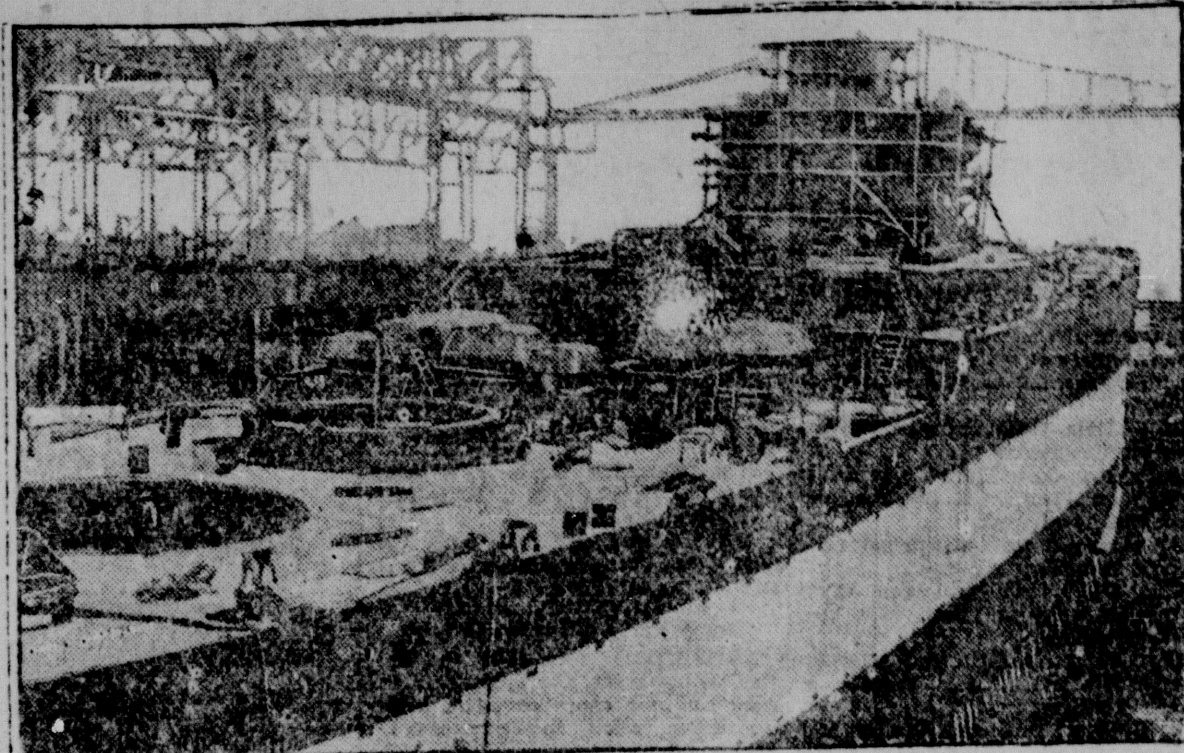

It reduces all kinds of enlarged glands, gotters and wens and is used exclusively in many large factories as an unflinching first aid to the injured antiseptic. Generous sample on receipt of 15 cent silver or stamps. International Laboratories, Rochester, N. Y. Your druggist can supply you.

QUIT TOBACCO

So easy to drop Cigarette, Cigar, or Chewing habit

No-To-Bac has helped thousands to break the costly, nerve-shattering tobacco habit. Whenever you have a longing for a smoke or chew, just place a harmless No-To-Bac tablet in your mouth instead. All desire stops. Shortly the habit is completely broken, and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Bac and if it doesn't release you from all craving for tobacco in any form, your druggist will refund your money without question.

THIS ONE WOULD BE SCRAPPED UNDER HUGHES' PLAN

The dreadnaught West Virginia, launched last week at Newport News, Va., would be scrapped under the proposal Secretary of State Hughes has made to the disarmament conference.

Her equipment consists of eight 16-inch guns, 14 five-inch secondary guns, four anti-aircraft guns and two 21-inch torpedo tubes. The crew is composed of 61 officers and 1565 men.

BLOOMINGTON, IND.—Frank Hanny, Aurora, Ill., right end, was elected captain of the 1922 Indiana University football team.

NEW YORK.—American swordsmen won the Thompson International fencing trophy by defeating the British team seven bouts to twelve.

MEMPHIS.—Joe Schwartz, of Detroit, and Bobbie Hughes, Shreveport, La., bantamweights, boxed eight rounds to a draw.

Explains Play on Sunday Forward Pass

Several of the local football fans were at a loss to understand the play in Sunday's Dixon-Rochelle Legion game when Vaughan snapped a forward pass to Eady, who had run back of the goal line and caught a perfect forward pass. In the account of the game in last evening's issue of the Telegraph, it was stated that one of Dixon players was off side, but this was incorrect.

According to the rule governing forward passes, Vaughan should have

been at least five yards back of the line of scrimmage at the time he passed the ball. He was about three yards back of the line when he snapped the ball and the referee called the ball back into play.

115 FARMERS OF LEE COUNTY IN GRAIN GROWERS

Workers Meeting Fine Success in Organization Efforts.

(Lee County Farm Bureau.)

In five or six days' work in Lee county four seeders have secured 115 grain growers' contracts or an average of 68% of those farmers visited. This is a remarkable showing considering the misunderstandings about the marketing plan. Later on with clean up work the percentage should reach 75% to 80%. This record has been equalled by only one other county in the state, Kendall, where there are 9 or 10 farmers' elevator companies in the county, and compares with Lee County where there are 14 or 15 farmers' elevators handling Lee County grain.

In Wyoming township two growers signed up 855 acres, one being a banker and the other a large farm operator. In China township seven growers were signed on one road leading out of town, and six were signed at one of the banks.

All but three of the farmers' elevators in Lee County have contracted to handle growers' grain and in addition two grain growers' associations have been formed.

A number of meetings were held at different points in the county during the past two weeks to acquaint farmers with plans of the U. S. Grain Growers, and these meetings were attended by a total of 1127 people. These meetings have served to clear up a number of mistaken ideas regarding

the U. S. Grain Growers, and the result of these meetings are already being shown by a better understanding and interest in the farmers' direct marketing plan.

Monoplane Property of Wealthy Aviator

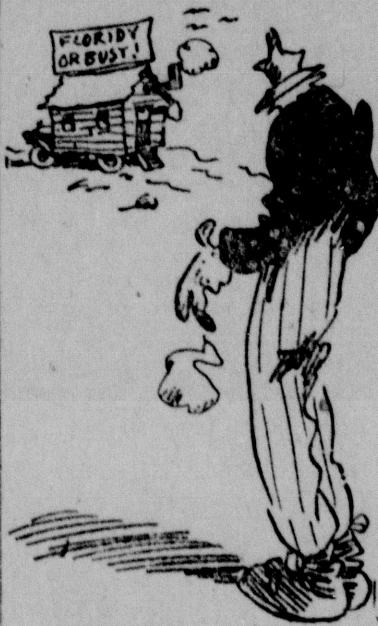

The huge monoplane which spent Saturday night in the field near the Max Gerdes farm home south of the city on the Peoria road, belonged to J. Lawson, promoter of a transcontinental aerial passenger line. The Lawson monoplane left Omaha Saturday afternoon at 1 o'clock, following the route taken by the government mail planes to this city.

The machine, with four passengers, passed through a heavy snow storm west of here and the flying schedule was delayed. Fearing that they could not make the Chicago field before dark Mr. Lawson had the pilot make a landing south of Dixon and remain over night. Mr. Lawson went to Chicago Saturday night and returned yesterday with his wife. A pilot, mechanic and a guest of Mr. Lawson's were passengers in the plane to this city. The pilot and mechanic spent Saturday night at the Nachusa Tavern returning to Chicago yesterday about noon with the owner of the huge plane and his wife, who are on their way to New York. The plane in one of the first monoplane types to be seen here and is a very large machine.

Low Excursion Rates for Fat Stock Show

The Railway Passenger Associations covering the Middle-West territory, in recognition to the unselfish service the International Live Stock Exposition of Chicago is rendering the industry, have granted a one and one-half fare for the round trip from all points between the Ohio and Mississippi Rivers, as well as from all cities lying on these rivers. Tickets to be on sale from Nov. 25th to 29th, both dates inclusive, good returning up to midnight of Dec. 5th. This is your opportunity to enjoy a season of education—pleasure—and a trip to Chicago at a greatly reduced fare. This is the show where the aristocrats of the animal world are brought together in a final contest; where the World's Greatest Grain and Hay Show will again be staged on a more elaborate scale; where the Junior Army of Feeders will come together in a final roundup and where the master breeders and feeders of this continent will show how those in attendance can increase their profits.

Plan now to attend the biggest, brightest and best show of the year.

Copyright 1921 Hart Schaffner & Marx

Those who classify overcoat models have called these big ulsters "greatcoats" for quality reasons, style reasons, value reasons. Of course they're great coats—they come from Hart Schaffner & Marx. We've added to their attractiveness by pricing them at extra value figures.

\$34.50

That's a fair price to pay for a greatcoat this season anywhere. It's a mighty good price to pay for one here—because it brings you rare values—very uncommon styles—very splendid textures, tailoring, patterns. Some of the models are in half belt, gather back styles, some have encircling belts with classy buckles, novelty pockets and cuffs. We've never shown as fine collection at \$34.50.

Others at \$25.00 to \$48.50

The Anti-tuberculosis seals in Dixon may be obtained at the Dixon Public Library of Miss Wynn and of Mrs. Jos. McCleary, county chairman.

In the thirty-six years since Dr. Edwards Livingston Trudeau started his sanatorium in the Adirondacks, for the treatment of tuberculosis, the idea has spread, until today there are 689 sanatoria throughout the United States. The important fact has been established that sanatorium treatment for tuberculosis is effective in any climate and at almost any altitude and the old idea that the patient had to go to certain sections of the country, often at great expense to himself, has been exploded. There are sanatoria at sea level and sanatoria on mountains a mile high, and their records are equally encouraging in relation to the types of tuberculosis cases which they handle. Whether the sanatorium is in the far North or in the extreme South, the effects of the fresh air and sunshine are found to be most beneficial.

The National Tuberculosis Association with its 1200 affiliated state and local organizations is constantly working to present the idea to the public, that the average person who has tuberculosis can be best treated in the sanatorium nearest his home. As a result some persons, even in large cities, have placed sleeping tents and rest chairs on the roofs of their dwellings and have been enabled thus to secure many of the advantages of sanatoria without separating themselves from their families.

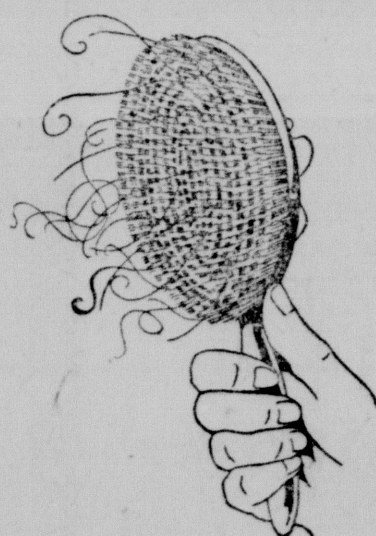

Patients in sanatoria throughout the country have recently formed an organization known as "The Joy Flingers," whose purpose is to spread the doctrine of cheerfulness and optimism not only among themselves but among others who are well and strong. Since the mental attitude of the tuberculosis patient has a great deal to do with the speed of his recovery, cheerfulness, therefore, has become the prevailing tone in most sanatoria.

Education as to the nature of tuberculosis and the best means of treating it is disseminated by the National Tuberculosis association and its affiliated organizations, with the result that the number of sanatoria is increasing yearly. Funds for carrying on this work are obtained from the sale of Tuberculosis Christmas Seals and the Fourteenth Annual Christmas Seal Sale will take place next December. The response of the public in purchasing these seals will determine the extent to which anti-tuberculosis work can be carried forward during 1922.

These days, it is hard to laugh at your own expense.

STATUS PRODUCERS' MARKETING COMPANY TOLD BY WILLIAMS

Business.
Sterling Man on Board of Directors Outlines

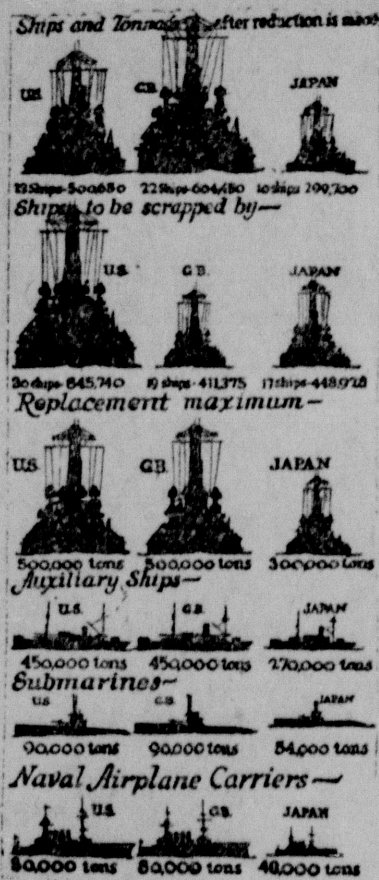

In a recent interview, J. T. Williams of Sterling, who is now a member of the Executive Committee of the Milk Producers Cooperative Marketing Company of Chicago made the following statement relative to the Marketing Company.

"The long fight on the Board of Directors of the Marketing Company which started last winter to re-organize the business management of the Marketing Company, was finally brought to a successful conclusion on November 7 when a resolution was passed by the Board of Directors validating the Directors' meetings which had been questioned by the former management. On the following day, Nov. 8, E. C. Rockwell, Frank Holt, A. L. Robinson, members of the so-called Old Guard on the Board of Directors resigned. Mr. Putnam also resigned, as did Mr. Engstrom of Rockford. This with the vacancy on the board of Mr. Kittling who had previously resigned, and then attempted to come back, left six vacancies on the board to be filled which vacancies were filled with men who are in sympathy with the fight that has been made to put the Marketing Company on a business basis. Consequently, the men who have carried on this fight to put the Marketing Company on a business basis finally found themselves on Nov. 8 in unquestioned majority upon the board—the so-called Old Guard having been thoroughly beaten in their final struggle to retain control of the company.

"The first thing that the re-organized board did was to pass a resolution empowering the executive committee to open negotiations to secure a loan, if possible, of sufficient size to take up all the back milk checks as when the Kittling management was overthrown, they had left the new management with over \$400,000 of unpaid milk checks which has, under the new management, been reduced to about \$260,000; but the old guard, until Nov. 8, still retained power enough on the board to prevent the present management from trying to negotiate a loan to take up this back indebtedness so that the farmers delivering milk through the Marketing Company could be paid promptly.

"The chief stumbling block that the executive committee is now meeting in attempting to raise this loan is the discredit that was brought upon the company by the old management and the fear on the part of bankers that in some manner the old management might get control of the company. However, arrangements with one of the large banks in Chicago have now progressed far enough that the executive committee feels that it is going to be possible to secure a loan from this bank large enough to take care of at least a part

WHAT U. S. NAVAL PLAN MEANS

The above chart shows what effect the United States naval program, as presented to the disarmament conference by American Delegate Chas. E. Hughes, would have on the three great naval powers, United States, Great Britain and Japan.

If not all, of these back milk checks in the very near future.

"Further, the executive committee feels that it is going to be possible to secure a loan from this bank large enough to take care of at least a part, if not all, of those back milk checks in the very near future.

"Further, the executive committee is negotiating with several possible buyers for two or three plants of the company's that are unnecessary to the carrying on of the company's business and should not have been bought or built, and by the sale of this property and the loan that they hope to be able to secure, the executive committee is very hopeful that from these two sources they are going to be able to raise money enough to clean up all the back milk checks. "The business of the company has already been reorganized to an extent that for the first time in its history the Marketing Company in the month of September was able to operate its business at a small profit. The future of the Marketing Company begins to look much brighter."

FORMER LEE COUNTY MAN TELLS OF OIL DISCOVERY IN KAS.

Albert Juelfs Writes of Excitement Near McPherson, Kan.

Albert Juelfs, former Lee county man, who is now living near McPherson, Kas., writes the Telegraph that they are having lots of excitement in that vicinity because of the discovery of oil there. A number of people in Lee county have holdings in the vicinity of McPherson, who will be interested in the following clipping from the Topeka Capital, sent by Mr. Juelfs. The article appeared as a special dispatch from McPherson:

With oil men pouring into this city in cars and by train, and the citizens at fever heat with excitement over the late developments at the Chamber of Commerce test well being drilled on the Jacobson land northeast of this city, McPherson is experiencing the first great thrill of an oil town in the making. It became known positively this morning that a good oil sand had been struck at 1,055 feet, and after a consultation between the drillers and the local men behind the project, it was decided to sink the bit lower, as it is expected to strike a much more profitable sand at about the 1,700 foot level.

Oil from the sand penetrated yesterday, is covering the slush pond and oil men estimate that a good, shallow producer would have been secured if the well had been shot at the present depth.

Prices Shoot Skyward.

Prices of leases are going skyward. John Wahn, head driller for the Wizard Co., of Wichita, who are putting down the well for the local organization, this morning paid \$8,000 cash for a lease of 200 acres of land which he could have secured for \$2,500 when the well was spudded in two weeks ago.

Scouts are covering the entire country between this city and Gypsum, in

Saline county, a distance of about thirty miles, leaving every piece of property they can secure.

See New Field Ahead.
Oil men who have studied the log of the well, state that the formation is identical with that of the country south of El Dorado, and predict that an entire new field is about to be opened in this county.

Bootleggers' "Four" Bests Gospel Team

Springfield, Ill., Nov. 21.—Gospel singers who held services each Sunday in the Sangamon county jail, found competition from a quartet of arrested bootleggers yesterday. Strains of "Lead Kindly Light" had no chance in the din the quartet gave back. "Father Oh Father Come Home With Me Now." The gospel singers beat a retreat.

Charm of Motherhood

THERE are many homes once childless that now are blessed with healthy, happy children, because Lydia E. Pinkham's Vegetable Compound restored the mother to a healthy, normal physical condition.

The following letters give the experience of two young women and prove the value of Lydia E. Pinkham's Vegetable Compound in such cases.

Chicago, Ill.—"I was always tired, my head always ached, and my back ached until I could hardly stand the pain. I doctored for years, and the doctor said nothing but an operation would help me, and that I could not have children. A friend asked me to try Lydia E. Pinkham's Vegetable Compound. I took six bottles of it and it helped me wonderfully, and I now have a fine baby boy, thanks to what your medicine did for me in restoring my health. I can highly recommend the Compound to all women who suffer from female ills."—Mrs. Wm. Reiss, 304 Willow St., Chicago, Ill.

Marinette, Wis.—"I was in a very nervous condition, was irregular, and could not have any children. I took doctor's medicine without success, and he advised an operation. My husband brought me one of your booklets and asked me to try Lydia E. Pinkham's Vegetable Compound. I soon felt benefited by its use, became regular, and now we have a fine baby girl after having been married nine years. I am always glad to recommend Lydia E. Pinkham's Vegetable Compound to my friends who suffer from such troubles."—Mrs. H. B. Held, 330 Jefferson St., Marinette, Wis.

NEW QUINTET TRIMS ARROWS IN FIRST BOUT

**Arrows, Playing Hard
Luck Game, Lost
Opening Game.**

(By Murphy.)

The Arrows and Independents, two Junior basket ball teams, the Arrows an old organization and the Independents a newly organized outfit, met Saturday evening at 7:30 in the Y gym for their first game of the season, and great was the strife thereof. Fridm start to finish the battle raged merrily, with victory perched on the fence most of the time. It wasn't till the last part of the game that the Independents could safely call the contest theirs and when the game ended the Independents had 15 points to the Arrows 8. The Arrows have had hard luck this season as several new recruits have jumped their contracts and mother wouldn't let several others play Saturday evening. These two teams will again clash Friday afternoon at 4 o'clock.

Suter the "champeen" whistle blower refereed the game. Aschenbrenner held the watch and Grover chalked up the results.

Defender of Cameron Dam Seeking Damages

Madison, Wis., Nov. 21.—John Dietz, "Defender of Cameron Dam" recently pardoned from serving the remainder of his life sentence following conviction in 1911 on a charge of murdering Oscar Harp, deputy sheriff, will make a final plea for damages from the state today on the ground of false imprisonment.

He is to appear before the pardon board this morning to press his claim for \$5000 maximum damages allowed by the state for false imprisonment. It will be his contention that Harp was never killed and for the time will have a lawyer to press his claim, O. B. Porter, of Madison being retained by him.

The death certificate of Harp was found two weeks ago at Winter, eliminating the claim of Dietz that no certificate existed to show his death.

The ladies' basket ball tournament continues and increases in interest, the attendance last evening breaking all previous records. A number of new players were signed and the games were fast and scrappy.

The Canaries and Orioles hit it up in the first game and for the first half it looked like an Oriole victory but in the second session the Canaries "got going" caught up and passed them, winning 6-4. Bovey made all three baskets for the Canaries and Weimann the two for the Orioles. An extra five minute period had to be played to break a tie score.

The Nightingale-Bluebird contest was another affair that resembled a cyclone especially the first half which ended 2-2. In the second half, however, the Bluebirds, who, heretofore have trailed the tournament put on an extra burst of speed, annexed six more points and won their first game 8-2.

Referee, Suter.
Next Monday the Orioles play the Nightingales and the Canaries take on the Bluebirds.

Coal! Coal! Coal!

Does it all look alike? Very often it does, but looks are deceiving. It don't all burn alike. Do you want poor coal, DEAR AT ANY PRICE, or do you want good coal, CHEAP AT A REASONABLE PRICE?

If you want Indiana Fourth Vein Coal or Central Illinois Low Grade Coal, we haven't got it.

But if you want some of the best coal mined in Southern Illinois, we have it.

"You may call a rose by any other name and it smells just as sweet." Not so with coal. Therefore, it is not our policy to quote on one grade and substitute another. We will deliver you just what you order.

Our Security Coal speaks for itself. There is no deception in the coal—there is nothing deceiving in the price. We have one price to all and only one on this grade of coal—\$8.25 per ton delivered, cash on delivery, or \$8.50 per ton on open account.

We can buy inferior grades of coal and sell it just as low as our competitors. We propose to give the consumer value received and a square deal. With this in mind we have purchased several cars of Southern Illinois coal (Williamson county) which we will deliver at \$7.50 per ton for cash on delivery. You can pay your money and take your choice.

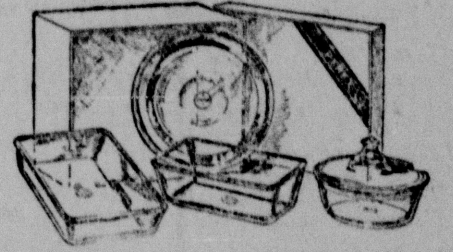

The coal business is a side issue with us. As an evidence, however, that some consumers prefer our coal at the price, we might add that within the last 30 days we have trucked to our customers nine car loads (450 tons), and up to date this season we have not received a single complaint as to quality or quantity. There is a reason. "The proof of the pudding is the eating." Try our Coal.

MOTHER! OPEN CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Your little one will love the "fruity" taste of "California Fig Syrup" even if constipated, bilious, irritable, feverish, or full of cold. A teaspoonful never fails to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the sour bile, and undigested food out of the bowels and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup—Adv.

MARTIAL LAW IN COLORADO IS ATTACKED

Union Leaders Declare Troops Not Needed in Strike Zone.

Walsenburg, Colo., Nov. 21. — (By the Associated Press)—The Colorado Fuel & Iron Company and district officials of the United Mine Workers looked forward today for definite information concerning the real extent of the strike of coal miners in the southern Colorado fields as the result of 30 per cent wage reduction inaugurated in 15 companies mines last Wednesday.

Both sides were claiming a margin in the number of miners reporting for work and the "test" today was regarded with great interest throughout the state.

Figures given out by the company in the last few days showed a steady increase in the number of men reporting for work, while John McLennan, district president, last night reiterated his statement that "fewer men are reporting each day."

Statements by Governor Shoup and Adjutant General Hancock last night to the effect that martial law would remain effective in Huerfano county

At any place of residence 2 miles north of Amboy on Centenary road on Wednesday, Nov. 23, 1921, commencing at 1 p. m. 4 head horses, 12 head cattle and a full line of farm machinery.

"for some time to come," drew declarations of opinion exploring the presence of state rangers in the Huerfano district from union leaders. In discussing the general situation in Huerfano county Frank Hefferly, international union organizer, stated that "martial law today is no more necessary than it was the day the governor issued his original proclamation."

Yukon Miners Are in Lively Campaign

Dawson City, Y. T.—Miners of the Yukon, whose thoughts have been centered heretofore chiefly on gold and silver, have turned to politics with unusual zeal. The campaign for the Yukon's only seat in parliament, which is being made on dog sleds by Major George Black, conservative, and F. O. Congdon, liberal, has stirred their rival constituents to the point of excitement rivaling a strike of pay dirt.

SAYS HIS PRESCRIPTION HAS POWERFUL INFLUENCE OVER RHEUMATISM

Discoverer Tells Public Drug & Book Co. and All Good Druggists Not to Take a Cent of Anyone's Money Unless Allenhu Completely Banishes Rheumatic Pains and Twinges.

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work. He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body. With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that

and another was wounded in a renewal today of the rioting which broke out in the Seaford district in East Belfast yesterday when rival factions clashed. Four persons were sent to hospitals and numerous others were slightly injured in yesterday's disturbance.
